

REPUBLICAN PARTY OF GUAM

MEDIA STATEMENT

FOR IMMEDIATE RELEASE

May 31, 2024

The Republican Party of Guam issues the following statement from Chairman Shawn Gumataotao on court proceedings in New York State Court involving Former President of The United States Donald J. Trump:

“We live in a Country of laws. What America was witness to in New York can be debated from Manhattan to Santa Rita. That judicial process involving Former US President Donald J. Trump is ongoing. All American communities, to include Guam, should respect that. The effort in New York courtrooms and the scores of others around the United States facing the Former President on its face are political. The Republican Party of Guam continues to prepare for the 2024 Republican National Convention where our Delegates to the Convention will elect our Nominee for President of the United States-carrying the support of the hundreds of Party members from across our 19 District Organizations in Guam. The court room will not replace the election booth on decisions to lead our Country and our Island.”
