

REPUBLICAN PARTY OF GUAM

LETTER TO THE EDITOR
May 1, 2026

I am so very excited for the August 1, 2026 Primary Election on Guam. There will be a primary for Governor of Guam from our Party. There will be a primary for the Guam Delegate to the US House of Representatives. Following August's primary, the strongest candidates from each party will advance to compete in the November General Election — including fifteen seats in the Guam Legislature.

Villages across the island have been getting ready for this 2026 Guam Election Cycle for months and the path to win up and down the ballot is just getting started. The leadership of each District will be reaching out to their neighbors, families and friends to remind them of the upcoming elections. They understand the issues as well as the candidates for public office. They are our neighbors committed to electing men and women whose values match yours.

Pick an issue. The Republican majority in the Legislature has already taken action — introducing legislation to roll back the Business Privilege Tax to 4%, putting money directly back into the hands of businesses and families across every village on this island. When we lower costs, improve healthcare by supporting Guam's only hospital, and invest in education through realistic budgeting — people stop leaving. That is not a slogan. That is a plan. A plan that puts Guam families first.

The talk is translating to policy.

I ask all eligible Guam residents to register to vote, if you have not done so. Check out www.gec.guam.gov for more details. Deadline is July 17, 2026. Meet candidates—like me! Talk with your District Leaders or Organizations. On August 1, please vote. And then plan to vote again on November 3, 2026. Join the excitement island wide for this important election cycle. Biba Guam!

Shawn Gumataotao
Chairman
Republican Party of Guam
