

## REPUBLICAN PARTY OF GUAM CHAIRMAN JOINS PACIFIC TRANSITION 47 COMMITTEE

*Pacific GOP Leaders form group to provide a channel of communication for recommendations on personnel and policy positions for consideration by the Trump-Vance Administration*

FOR IMMEDIATE RELEASE  
December 27, 2024

Republican Party of Guam Chairman Shawn Gumataotao has joined the Pacific Transition 47 Committee as the Nation prepares for the inauguration of the 47th President of the United States. The purpose of this committee is for the three Republican Territorial Members of the US House of Representatives to join forces with senior political leaders in the American Pacific to offer joint recommendations of federal policy and key appointments of President-elect Donald J. Trump. The Committee was formed following a recommendation by incoming Assistant to the President for Legislative Affairs James Braid.

Gumataotao joins Senator-elect and Speaker-designate for the 38th Guam Legislature Frank Blas Jr. and returning Guam Delegate to the US House of Representatives James C. Moylan as Guam members on the Pacific Transition 47 Committee.

“This is the first time ever that all three Pacific members of Congress are Republican and the first time in decades that both houses of the US Congress and the Presidency are in Republican hands,” said Chairman and Senator-elect Gumataotao. “The purpose of this committee is for the three House members to join forces with senior political leaders in the American Pacific to offer joint recommendations to the incoming Trump-Vance Administration.”

By federal law, Trump will be inaugurated as President of the United States of America on January 20, 2025.

“The Republican Party of Guam is excited about joining this Pacific effort,” said Chairman Gumataotao. “We will be ensuring that a Pacific face will be on the non-career positions in the federal government that effect any part of the US Territories in which we live and work-for the benefit of all Americans in the CNMI, American Samoa and Guam.”
